

# The Atlas of Living Costa Rica - CRBio

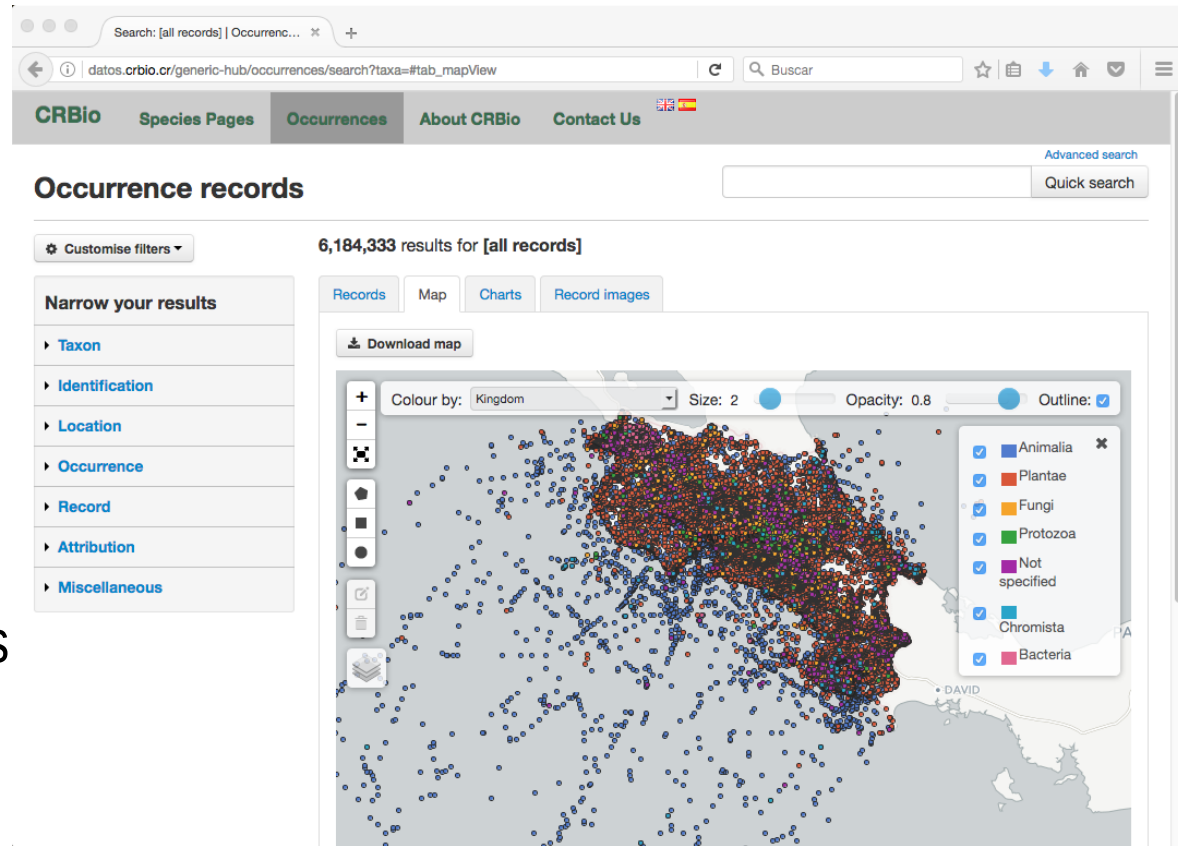

*Manuel Vargas. Instituto Nacional de Biodiversidad (INBio), Costa Rica*

International Living Atlases Workshop, Madrid 2018

# The Atlas of Living Costa Rica - CRBio (<http://www.crbio.cr/>)

- Launched in 2006 and relaunched in 2016 with ALA tools:
  - Biocache
  - Collectory
- It also uses inhouse tools
- ~7M georeferenced species occurrence records
  - > 800 datasets
  - From > 30 countries
- ~5K species pages
- ~50K images

# The Atlas of Living Costa Rica - CRBio (<http://www.crbio.cr/>)

- Additional modules that we are considering:
  - Spatial portal
  - Image portal
  - BIE (for species pages)
- Additional issues:
  - Integration of Plinian Core
  - i18n
  - Hosting
  - Docker containers?
